Who We Are

Hoko Energy and Projects is a dynamic and forward-thinking Energy Service Company (ESCO), committed to revolutionising the energy landscape.

With a strong focus on sustainability, innovation, and client satisfaction, we specialise in providing comprehensive energy solutions tailored to meet the unique needs of businesses and organisations.

Hoko Energy and Projects is classified as a Tier 2 ESCo under the South African National Energy Development Institute.

Our Services

Energy Audits

Expert assessment of buildings and facilities to identify energy waste and optimisation opportunities.

Energy Performance Certificates

EPC ratings on an A–G scale to benchmark buildings for compliance and improvement.

Renewable Energy Solutions

Solar, clean energy integration and alternative energy systems tailored to client needs.

Energy Management Systems

ISO 50001-aligned EnMS for structured, data-driven reduction of energy consumption and emissions.

Project Management

End-to-end planning, coordination and execution of renewable energy projects.

Environmental & Sustainability Consultancy

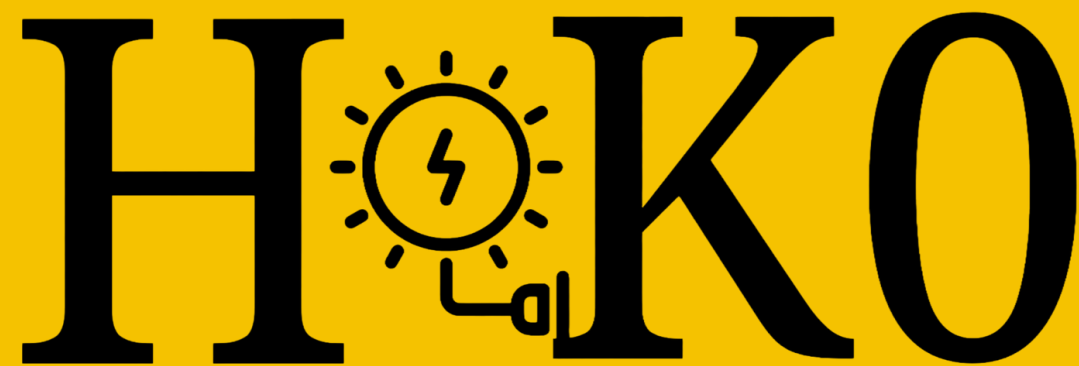

Environmental management planning, implementation and monitoring for sustainable development.

Vision

To be a leading force in the global transition to clean and renewable energy.

We aspire to build a world where energy is abundant, affordable, and environmentally responsible — where every individual, business, and community has access to reliable and sustainable energy solutions that support economic prosperity, social equity, and environmental stewardship.

Mission

- Empower communities with sustainable energy solutions
- Drive positive environmental impact and economic growth
- Deliver reliable, efficient, and accessible energy services
- Promote energy efficiency and sustainability
- Leverage innovative technologies and personalized services
- Promote a sustainable future for generations to come
